My name is Erik Gundersen, Not only am I a proud listener of XM Satellite Radio I am also one of millions that benefit from it daily both in saving me time and saving me money. As a Business Owner in Southern California Saving money to make a higher profit is not easy. But one way I am able to do so is by having XM traffic and weather channels in all my Company Vehicles for my Drivers to use to get around. Less time they are on the road, less time I am paying them to sit in traffic. I was informed by XM about the NAB's petition 04-160 to the FCC. I respectfully urge the FCC to reject the NAB's petition. XM is doing something great with this service and the NAB knows that, and wants to take that part of the market away from XM for its own profit gain.
